

## WHAT DO WE WANT TO DO DIFFERENTLY FOR OUR CHILDREN AND FAMILIES IN SOLIHULL?

### SMART Plans

Our plans need to be multi-agency and drawn up with the family and key professionals involved. Actions need to be clear on what work needs to be done, by whom and when this needs to be completed, as well as considering contingency planning.

### Individual differences and intersectionality

We need to consider a Child's individual differences (ethnicity, disability etc.) more when understanding their lived experiences.

### Consideration of siblings

We are not always considering all children living in the household and any children in contact with the family concerned where risk of harm or actual harm has been identified.

### Strategy meetings

We need to ensure that the standard of strategy meetings is consistent across both those held in the MASH and outside of the MASH particularly in relation to the timeliness and the quality of recording.

### Chronologies (timeline of involvement)

We have found that our timelines of involvement are not routinely kept up to date. Any new information should always be included.

### Sharing of minutes, assessments, and plans

We are seeing consistently throughout our audits that minutes of meetings, assessments and plans are not being shared with all relevant agencies. This needs to improve going forward.

### Assessments

Our multi-agency assessments could be improved by ensuring all relevant agencies are aware of the assessment and their information is used to inform the assessment. We also need to ensure that the outcomes of assessments are shared with all relevant agencies.
