Solihull Safeguarding Children Partnership

Continuum of Tools for Neglect

Single Agency Chronology/ Timeline of Involvement

- You have some concerns about a child.
- You will be keeping a record of your work with a child and their family, but when you have a concern, using a chronology of critical incidents/ key decisions and events to build a picture about what life is like for that child.

Neglect Screening Tool

- You are concerned that the child may be suffering from neglect.
- Use the Neglect Screening Tool to help you to identify and articulate your concerns.

Multi-Agency Chronology/ Timeline of Involvement

- If you have a concern, share it with other practitioners to help build a more holistic view.
- A multi-agency timeline or combined chronologies of involvement can identify patterns that one agency alone may not see.

Graded Care Profile 2 Assessment

- The Graded Care Profile GCP2 is a practical tool which supports practitioners in measuring the quality of care delivered to a child from their parent/ carer over a short window of time, and is designed to give a representative overview of the current level of care.
- Any practitioner can access SSCP multi-agency training to use GCP2.
