

Solihull Safeguarding Adults Board Board Annual Report 2022-23 and plans for 2023-24

Easy to read summary

Introduction

The Care Act 2014 is the law about care and support for adults in England.

Its says what abuse and neglect is and how to stop it.

It says each area must have a group that works on keeping people safe. This is called a Safeguarding Adults Board.

What we did during 2022-23 to make a difference?

We have done a lot of work to make sure that the Safeguarding Adults Board has the information it needs, to check people are being kept safe.

We have worked closely with Solihull's group that keeps children safe and the group that keeps the community safe, and have shared what we know and what we would like to learn.

We talked to communities and asked them what they were worried about, and what would help.

Where people have been happy with the help they have had, we have shared this with everyone so that workers can see the best ways of helping people.

We have looked at the news, and things that have happened across the country where people have not been kept safe, and thought about how we can learn from this to make sure it doesn't happen in Solihull.

We have been doing checks on how we do things locally to keep people safe, to make sure everyone is doing the best they can to help people who need it.

What are we going to do in 2023-24 to keep adults safe in Solihull?

We are going to look at which communities and groups of people are living in Solihull.

We are going to make sure the information we share on safety is being seen by as many communities as possible.

We are going to talk to different communities in Solihull about what we should do to help keep them safe.

We are going to talk to the public about how to keep their money and the things they own safe

We are going to make sure professionals who work with the public know how to help them keep their money and the things they own safe
